

Bright Bumblebees

Maths

We have been sharing and dividing numbers this week. We can share a number of counters into equal groups and say how many are in each group. We can also write this as: $20 \div 4 = 5$

English

This week, we are newspaper reporters. We have learned our model text about the Great Fire of London, and we have done lots of short writing activities to help us become super reporters. Next week, we will innovate our writing and create our own newspaper report.

Topic/DT

We have been finding out about fire engines. Using what we have learnt, we have designed our own fire engine. We have explored how our vehicle can move and experimented with a free axle with fixed wheels and, a fixed axle with free moving wheels. Next week, we make them!!

[Chrome Music Lab](#)

This week's Bright Bumblebees are **Chloe, Teddy and Grace.**

Have a great weekend!

Mrs Hickman 😊
