

Good afternoon Snakes!

This week in our English lessons, we have been using powerful adjectives to describe an animal with magical powers. This will help us to plan our 'Wish Tale' stories.

Our maths lessons this week have continued to deepen our understanding of division by looking at problems requiring exchanges and remainders.

During our indoor PE lesson this week, the children presented their gymnastic routines to the rest of the class. Each routine included a selection of balances, jumps and rolls.

Our pupils of the week are:

Christa T and Harry D - For working hard and persevering to better understand division during our maths lessons.

Please remember to allow your child to practise their spellings at home. As Year 4 children will also be required to take the government's mandatory times tables check during the summer term, practising their times tables on <https://play.trockstars.com/> is important. Your child is set the task of playing 25 games per week (approx 1 min per game), though as much practice as possible would be recommended to master this vital mental maths skill. Finally, please remember to remind your child to read at home for a minimum of 10 minutes per day; a mixture of reading aloud and to themselves is preferable.

Many thanks and have a great weekend,

Mr Bell
