

Legendary Lions Newsletter

Friday 14th April

English

In English this week, we had a shock to find that after playtime, our classroom had been trashed, and our chairs had been stolen! Luckily, due to the children's detective skills, we worked out that they had been used to shelter a young boy who was scared of the storm! We have also been learning and creating a story map of a mystery story.

Maths

In maths this week, we have been learning about adding and subtracting fractions and partitioning the whole.

This term we are continuing to focus on learning our 3s, 4s and 8 times tables.

Science

This week in science, we have started our new topic on flowering plants and were learning about the function of leaves. We started a whole class investigation to see if a plant would be healthier with more or less leaves. We kept all of the leaves on the first plant, took half the leaves off the second plant, and all of the leaves off the last plant! We will be watering them daily and making observations over the next two weeks.

Topic

This week, we have started our new topic, 'A Journey Through Europe'. We looked at famous monuments throughout the continent and found Europe and its countries in an atlas. A POWER project homework sheet should have come home this week to fit with our new topic.

PE Days

This term, our PE days will be **Monday** and **Friday**.

Homework

Please try to read at least **4 times** a week at home and record in reading records, practice spellings each evening and complete **15 minutes** of TTRS each week. This will be checked every Friday.

Well done to Alfie, Henry, Winnie, Verity and Advit for achieving certificates this week!

Have a lovely weekend,

Mrs Wall
