

Legendary Lions Newsletter

Friday 24th April

English

In English this week, we have been learning about how to create suspense in our writing by using dramatic fronted adverbials, the weather and rhetorical questions. We have also been practicing writing dialogue, so that our characters can have a conversation.

Maths

In maths this week, we finished our unit on fractions and have started a new unit on money! We have been recognising and counting pounds and pence.

This term we are continuing to focus on learning our 3s, 4s and 8 times tables.

Science

This week in science, we checked on our basil plant investigation that we started last week and found that the plant that we took all the leaves from was dying, whilst the other two were thriving!

We have also been learning about the function of roots and stems and have set up a new investigation where we put a celery stem in a water and food colouring mix. We all made a prediction, and we will see what happens next week!

Topic

This week, we were identifying and researching rivers in Europe. We found out lots of fascinating facts!

Homework

Please try to read at least **4 times** a week at home and record in reading records, practice spellings each evening and complete **15 minutes** of TTRS each week. This will be checked every Friday.

Well done to Khloe, Maggie, and Teddy for achieving certificates this week!

Have a lovely weekend,

Mrs Wall
