

Good afternoon Snakes!

This week in our English lessons, we finished planning and then wrote up our instructions on how to trap a goblin. Our instructions included rhetorical questions, time signposting and the careful selection of imperative verbs..

In our maths lessons this week we performed calculations using mixed and improper fractions.

During our science lesson this week, we considered the properties of solids, liquids and gasses by exploring the behaviour of molecules in each state..

Our pupils of the week are:

Rosie G: For her creative torch design during our DT lesson.

Mia B: For working hard and supporting her partner when adding and subtracting fractions.

Please remember to allow your child to practise their spellings at home. As Year 4 children will also be required to take the government's mandatory times tables check during the summer term, practising their times tables on <https://play.ttrockstars.com/> is important. Your child is set the task of playing 25 games per week (approx 1 min per game), though as much practice as possible would be recommended to master this vital mental maths skill.

Finally, please remember to remind your child to read at home for a minimum of 10 minutes per day; a mixture of reading aloud and to themselves is preferable.

Many thanks and have a great weekend,

Mr Bell
