

Legendary Lions Newsletter

Friday 1st May

English

In English this week, we have worked super hard on our innovation of 'Mystery of the Missing Chairs' and have continued to focus on building suspense for the reader. We have also been recapping the rules of writing dialogue, ready for writing our hot tasks next week.

Maths

In maths this week, we have been learning about adding and subtracting money and finding change. Yesterday, our classroom turned into a shop! We had to use our money wisely and use what we have learnt so far to make sure that the shopkeeper gave us the correct amount of change!

This term we are continuing to focus on learning our 3s, 4s and 8 times tables.

Science

This week in science, we checked on our celery stick investigation and observed that the food colouring & water mix had travelled all the way up the stem! This aligned with our prediction we made last week, as the function of the stem is to transport water.

We have also put one plant in a plastic bag to see what will happen if a plant has no air! We will check back on this next week.

Topic

This week, we did a capital city treasure hunt and learnt about some of the capital cities in Europe.

We have also been creating some beautiful monument artwork linked to our Europe topic.

PE Days

Just a reminder, our PE days are now **Monday** and **Friday**.

Homework

Please try to read at least **4 times** a week at home and record in reading records, practice spellings each evening and complete **15 minutes** of TTRS each week. This will be checked every **Friday**.

Well done to Ebony, Cleo and Archer for achieving certificates this week!

Have a lovely weekend,

Mrs Wall
