

Good afternoon Snakes!

This week in our English lessons, we started to imagine our magical worlds and what they might look like. We used adjectives, similes and prepositions in our descriptions..

In our maths lessons this week we looked at the hundredth place and how numbers can be represented when hundredths are included. We also divided numbers by 1 and 2 digit numbers by 100.

During our history lesson this week, we looked at the many attempts of the Romans to invade Britain. We learned why some of these attempts failed. We then tried to imagine what it would be like living in Britain at that time. We also held a debate as to what we would have done when the Romans invaded.

Our pupils of the week are:

Willis H: For being a patient and caring learning partner during our maths lessons.

Rosalie P: For the creative use of adjectives during our English lessons.

Please remember to allow your child to practise their spellings at home. As Year 4 children will also be required to take the government's mandatory times tables check during the summer term, practising their times tables on <https://play.ttrockstars.com/> is important. Your child is set the task of playing 25 games per week (approx 1 min per game), though as much practice as possible would be recommended to master this vital mental maths skill. Finally, please remember to remind your child to read at home for a minimum of 10 minutes per day; a mixture of reading aloud and to themselves is preferable.

Many thanks and have a great weekend,

Mr Bell
