

Bright Bumblebees

Maths

This week we have been learning statistics. We have been drawing and interpreting pictograms. We have used clues to help us work out what the pictogram could look like. Sometimes, there's more than one possible answer. For example,

Jo's friends vote for their favourite fruit.

She draws a pictogram and says it shows:

- the same votes for apple and pear
- melon got the fewest votes
- plum got the most votes
- grapes got only 1 vote
- grapes got fewer votes than pear.

English

We have written our explanations for the Parent Pleaser machine! They sound amazing and I'm sure that some of our ideas would be popular with parents!

DT

We have designed our pouches and begun to use templates to cut out our felt. Next week, we sew!

This week's Brilliant Bumblebees are **Harli** and **Cleo**.
