

TIGER CLASS

This week in Maths, Tiger Class have been revising key areas of their learning this year by answering arithmetic questions and word problems. The children have also been completing mathematical tasks to crack codes and solve the mystery.

In English, Tigers have read two newspaper reports and recapped on the features within them. The children have annotated these to show the purpose of each paragraph for the reader. Tigers have created a number of questions in the role of a journalist in order to write a report of a missing child based around the animation of 'Alma.'

Children have continued rehearsing for our end of year production. They are all doing really well. Costumes are to be **in by the 10th July** (Friday) please. Many thanks.

Well done this week for earning a certificate to: Alexa and Freddie for showing a real interest in our lesson on Greek Food.

Have a lovely weekend!

Mrs Gittens and Ms. Archer
