

Toucan Class Newsletter

In English this week we have been learning the story of 'The Gingerbread Man'. We have been using story maps to help us re-tell the story and actions and drama to help us understanding new words such as 'peckish'.

In Maths, we have been practising our counting skills and learning how to recognise numbers when they are written as words. We have also continued learning about 3D shapes and have enjoyed working out which 3D shapes can roll and which can stack.

This week in Science, we have been looking for signs of autumn and exploring our outdoor area. We spotted autumnal coloured leaves, blackberries and brambles, conkers, sycamore seeds and much more! We also searched for worms, spiders, birds and feathers and talked about the animals we found. The children really enjoyed being little scientists and making observations!

In our topic lessons we have been looking at how a hot air balloon works and we have used the art technique of pointillism to design our own hot air balloon.

Stars of the Week

Well done to Clara, George and Teddy for receiving a certificate this week!

Have a great weekend!

Miss Dallow and Mrs Wright 😊
