

Zestful Zebras' News!

Maths

We have continued with place value this week. Our target was to look at a 2-digit number and say how many tens and how many ones make it. For example, 72 is made of a 70 (7 tens) and 2 ones. We have also practised writing numbers in words. Eg, seventy-two. How tricky!

English

In our story this week, we have focused on adjectives. We practised writing 2A sentences (2 adjectives) to describe a person or object. Using a farm picture, an example we came up with was: The old, rusty tractor. We also explored synonyms for said. We had fun saying different sentences depending on the word used. "Go away!" whispered the King or "Go away!" demanding the King or "Go away!" giggled the King.

History

We have been exploring what an astronaut needs in order to do their job. We watched a simple NASA video showing the main features of an astronaut suit and then we labelled our own astronaut. It got us thinking about what other jobs there are that require special clothes.

Science

Our unit this term is called 'Local Habitats'. This week, we have been finding out what plants or animals can be found on or around a tree. We've been using words such as, shelter, survive and habitat.

Our star pupils this week are:

Miles and Connie!

Have a great weekend!

Mrs Hickman 😊
