In English we have continued to use story maps to retell the story of the Gingerbread Man. We have also used characters from the story to write simple sentences which have included adjectives and verbs.

In Maths, we have been learning about '1 more'. We have used cubes, tens frames and number lines to help us to understand this tricky concept. We have also continued learning about 3D and 2D shapes. The children have been sorting and identifying 3D shapes and recognising different 2D and 3D shapes in their environment.

In Science, we have been learning about materials with a focus on wood, plastic and metal. The children sorted different objects according to the material they were made from and enjoyed going on a material hunt around school, looking for examples of wood, plastic and metal in our surroundings.

In RE, we explored the story of Creation and thought about what God may have seen when looking out of His window. The children used their imaginations to create beautiful pictures showing what they thought He might have seen.

In our topic lessons we have been finding out about the Wright brothers, who were the inventors of the first airplane.

Stars of the Week

Well done to Ariana, Hunter and Ryder for receiving a certificate this week!

Have a great weekend!

Miss Dallow and Mrs Wright 😊
