

Zestful Zebras' News!

Maths

We have been using our knowledge of place value to write addition sentences. For example, $36 = 30 + 6$. Keep practising at home!

We have also been practising counting in 10s and using this to help us estimate numbers on a number line. We played a game online to help us with this:

[Placing Numbers on a Number Line - Tablet Version - Mathsframe](#)

English

We have finally begun to innovate our own journey stories. We changed some key characters and talking objects from our model text and adding our ideas. So far, we have written the opening to our story and they are all brilliant!

History

We looked closer at the life of Neil Armstrong and ordered key events of his life onto a timeline. We then completed a simple fact file about him, also asking some great questions, such as, 'was it scary in space?'

Science

We have been finding out what animals live in a woody habitat, particularly a hedgerow. We took photos and drew careful observations of what we found.

★ Our star pupils this week are: **Diana** and **Lennie**

Have a great weekend!

Mrs Hickman 😊
