

Genius Giraffes Newsletter

Friday 2nd October

English

In English this week, we have been writing our setting descriptions for our end of unit 'hot task'. We have worked hard to include all the toolkit features, and I am incredibly proud of the children's imaginative ideas and engaging descriptions of the beach!

Maths

In maths this week, we have finished our place value unit and started revising addition and subtraction. We have been practicing our number bonds to 10, and linking number facts (e.g. if I know that $7 + 3 = 10$, then I know that $70 + 30 = 100$, and $700 + 300 = 1000$)

This term, we are focusing on practicing our 2s, 5s and 10s times tables.

Geography

This week, we have been learning about how humans survive extreme temperatures in hot deserts. We created our own 'survival kits' and discussed what we would take to the desert if we could only take 3 things.

Science

In science this week, we have been learning about muscles. We took part in circuit training activities and identified where on our bodies we felt our muscles pull.

Homework

As the children are now in KS2, they are expected to complete the following each week:

- 15 minutes TTRS (logins are in the front of reading records)
- Read 4 times a week (please record in reading records)
- Practice Spellings

This will be checked on a **Friday**.

Well done to Lydia, Cleo, Camden and Freddy for achieving certificates this week!

Have a lovely weekend,

Mrs Wall
