

Frog News

Friday 2nd October

Maths

This week, we have started our new unit on addition and subtraction. We have been adding and subtracting numbers with more than four digits, using rounding to estimate and check our answers, and using the inverse operation to check our calculations. We have also been solving multi-step problems

English

In English, we have been planning and writing our hot task for our warning tale. We have been putting into practice the features from our writing toolkit, including fronted adverbials, expanded noun phrases and show don't tell, to create engaging and descriptive stories

Topic

In Topic, we have been exploring how meanders form along a river. We looked at the processes that cause rivers to bend and change shape as they flow along their course.

Science

In Science, we have been learning about day and night and the seasons. Working in groups, we modelled how the Earth rotates on its axis to create day and night. We also explored how the Earth orbits the Sun and how this links to the changing seasons.

PE

In PE, we have been developing our gymnastics skills by creating routines using jumps and flights on apparatus. We have been working on combining movements and performing them with control and confidence

Well done to Amber and Aahliah for getting a certificate this week!

Have a great weekend!
