

OTTERS CLASS WEEKLY NEWSLETTER

In English, Otter Class have been continuing with writing the innovation based on the story 'Kidnapped.' The children have been working hard to ensure that they are including precise verbs, fronted adverbials, short sentences to create tension and expanded noun phrases. We are currently innovating the rescue and the children have been really excited to write about this. Throughout the week, the children have also been editing and improving their writing.

In Maths, Otter Class have been developing their knowledge of common multiples and the rules of divisibility. The children have also extended their knowledge of prime numbers before learning about square and cube numbers. Otter Class have ended the week using the formal method for multiplying up to four-digit numbers by a two –digit.

In PE, the children continued to practice basketball skills and their balancing skills using apparatus.

It has been great to see the children earning marbles for their pots. I can't believe how many prizes I've given out already! Keep it up Otters!

Well done for earning a certificate this week to: Dylan, Maddie and Billy

Have a super weekend! ☀️
