

# Toucan Class Newsletter

In English we have started writing our innovated versions of 'The Gingerbread Man' and the children are doing amazingly! They are using their fantastic ideas from their planning last week and are writing super sentences which have capital letters, full stops and finger spaces.

In Maths, we have been comparing numbers using language such as 'greater than', 'less than' and 'equal to'. We have also used the symbols  $<$ ,  $>$  and  $=$  to compare numbers

The children have also enjoyed sorting shapes into different groups and explaining how they have sorted them. We then explored repeating patterns, spotting what comes next and creating our own patterns too.

In Science this week, we have been investigating different types of paper to find out which is best for writing on. The children made predictions before testing the papers and comparing their results to decide which was most suitable.

In RE, we continued our learning about the Christian Creation story. The children created their own trees, adding leaves with words and pictures to represent the different things Christians believe God created.

In our topic lessons we have looked at the features of a rocket and designed our own rocket ensuring it has key features such as a nose, fins and a body tube.

## Stars of the Week

Well done to Edith, George and Ollie for receiving a certificate this week!

Have a lovely weekend!

Miss Dallow and Mrs Wright 😊
