

Good afternoon Capybaras!

This week in our English lessons, we have innovated a warning tale as a class using the skills we have been honing for the past few weeks.

Our maths lessons this week looked at how to round numbers to the nearest 10 and 100. This is a skill Year 4 children find challenging. We have done really well and made excellent progress with this!

During our geography lesson this week, we continued to look at the features of maps, progressing to using and writing four figure grid references.

Our pupils of the week are:

Aurora W - For excellent map work using four figure grid references.

Arthur C - For careful reasoning when rounding numbers with his maths partner.

Well done to both of you.

Here are QR codes to help you access Accelerated Reader and Times Tables Rockstars at home.

QR Code to access Times Tables Rockstars

Please remember to allow your child to practise their spellings at home. As Year 4 children will also be required to take the government's mandatory times tables check during the summer term, practising their times tables on <https://play.ttrockstars.com/> is important. Your child is set the task of playing 25 games per week (approx 1 min per game), though as much practice as possible would be recommended to master this vital mental maths skill.

Finally, please remember to remind your child to read at home for a minimum of 10 minutes per day; a mixture of reading aloud and to themselves is preferable.

Many thanks and have a great weekend,

Mr Bell
