

Frog News

Friday 9th October

Maths

This week, we have finished our unit on addition and subtraction. We have been looking at missing numbers and comparing calculations before completing our end-of-unit assessment. We have now started our new unit on multiplication and division, exploring multiples and common multiples.

English

We have started our new unit on **discussion texts**. For our cold task, we have been considering the question "*Is homework necessary?*" We have also been exploring a model text and identifying its different features, as well as developing our key vocabulary and looking at how counterarguments are used in discussion writing.

Topic

In Topic, we have been learning about some of the **major rivers of the world**. We have been locating these rivers and labelling them on maps.

Science

In Science, we have been learning about the **Moon's orbit around the Earth** and exploring how the Moon moves in relation to our planet.

PE

In PE, we have been developing our tag rugby skills. We have been practising passing and applying our skills during matches.

PSHE

In PSHE, we have been learning about **body image** and how images we see online can be edited or altered. We discussed how fake and edited images can affect the way we view ourselves and others.

Well done to Frankie and Jesse for getting a certificate this week!

Have a great weekend!

Miss Pullen
