

Outstanding Otters

This week in English, Otters have been identifying how a newspaper report is organised. The children have also been identifying the range of language features included within this text type. Otters have completed a box -it -up plan for "Blizzard Causes Chaos." Otters have developed their knowledge of formal and informal language and direct and reported speech.

In Maths, the children have been continuing with their work on division of a three or four-digit number by a two-digit including those with remainders. Otters have then been solving problems related to division. The children have ended the week solving multi-step problems.

In P.E., the children have been participating in small games of basketball in which they have practised their attacking, defending and shooting skills. Otters have continued to practise their balancing skills using apparatus before performing it to their peers.

Otters have continued to enjoy listening to our whole class story of "Clockwork," in which Fritz is now in a dangerous situation with one of the figures, "Sir Ironsoul."

Well done this week for earning a certificate to: Tilly M and Charlie.

Have a lovely weekend,

Mrs Gittens
