

Toucan Class Newsletter

In English we have been looking at instructions. We have read through a set of instructions for how to make a gingerbread man and we have discovered the key features of instructions such as a title, sub-headings and simple steps.

In Maths, we have used our knowledge of comparing numbers to sort numbers - sometimes from smallest to greatest and sometimes from greatest to smallest. We have also been learning how to use a number line. We have also started our new unit on length and height. We have been comparing objects and using the words longer and shorter to describe them.

In Science, we have continued exploring materials, focusing on the question, "Are all fabrics the same?" The children used magnifying glasses to look closely at different fabrics and carefully drew the details they noticed.

In RE, we have been thinking about caring for our world. The children sorted pictures into actions that show care for our world and actions that do not, discussing how we can help look after it.

In our topic lessons, we have constructed all the components of our rockets using our painting, cutting and measuring skills. Next week, we will be ready to assemble our rockets together!

Stars of the Week

Well done to Aubrey, Ezekiel and Teddy for receiving a certificate this week!

Have a lovely weekend!

Miss Dallow and Mrs Wright 😊
