

Zestful Zebras' News!

Maths

We have been adding and subtracting ones mentally and with a number line. We have also begun to learn a new method where we add to make 10 first. For example, $8 + 4 = 10 + 2$. Don't worry, we will continue with this after half term!

English

We have finished writing instructions 'how to make a soup' and even found time to write instructions for 'how to make a chocolate bar'! I'm super proud of their efforts with this. Well done, Zebras!

DT

I hope you enjoyed your chocolate bars. The children spent the last session evaluating their bars and considering ways in which they could improve them. Willy Wonka will be pleased!

Homework

Many thanks for all the wonderful projects that have been brought into school. It's always a pleasure to listen to the children speak aloud and explain what they did. Keep your eyes peeled for next term's project.

★ Our star pupils this week are: **Eve, Cecilia and Bradley.**

Have a great half term!

Mrs Hickman 😊
