

Frog News

Friday 23rd October

Maths

This week, we finished our multiplication and division unit. The children have been multiplying and dividing by 10, 100 and 1,000. They also completed their end-of-unit assessment and showed great effort and understanding.

English

In English, we completed our discussion text unit. After finishing "Is homework necessary?", the children planned and wrote their own discussion texts on topics of their choice, such as "Should school uniforms be compulsory?" and "Should you get a day off on your birthday?" They worked hard to include key features such as balanced arguments, evidence, conjunctions and colons.

Topic and Computing

In Topic, we continued researching and developing our PowerPoint presentations on famous rivers around the world. The children have been using the Chromebooks to gather facts, organise information and begin designing their slides.

Well done to those children who have brought in some fantastic PowerProject homework - it's been brilliant to see the creativity and effort!

Science

In Science, we rounded off our Space unit by completing a short quiz to review what we've learned. The children have all enjoyed learning about space and have shown great enthusiasm and understanding!

PE

On Monday, we had our final Tag Rugby session with the sports coach. The children enjoyed competing in short games, putting all the skills they have learnt into practise and demonstrating great teamwork.

Have a great half-term break!
