

Outstanding Otters

This week in English, Otters have recapped on their knowledge of newspaper reports. We have planned together a report about a flood in Millford and have share written the introduction. The children have also identified the features within the next paragraph and have innovated their own.

In Maths, the children have been developing their knowledge of equivalent fractions and have been placing them on number lines. Otters have been ordering and comparing fractions by finding the lowest common multiple of the two fractions to identify whether they are bigger than, smaller than or equal to.

In P.E., the children thoroughly enjoyed their first lesson for Orienteering, and they all worked well in their teams to solve problems to get from one side of the playground using ball and hoops to the other.

This term in Science, the children are learning about Evolution and Inheritance . Otters are learning about the Vikings in History and in R.E., Creation and Science where they will be considering whether the two concepts are conflicting or complimentary.

Otters have now completed our guided reading text "Clockwork,' and are awaiting to find out what we will be reading next.

Well done this week for earning a certificate to: Tilly W.B. Kazik and Stan.

Have a super weekend,

Mrs Gittens
