

Leopard Class Newsletter

In English this week we have been busy writing sentences which have finger spaces, a capital letter at the start and a full stop at the end. We have also started learning how to write using cursive handwriting!

In Maths, we have been counting backwards and forwards to 10 and revising our counting skills using Tens Frames, number lines and various different games to help. We have also been practising forming our numbers correctly. We have used a catchy song to help us remember and if you would like to practise this at home, please click on the link below:

<https://www.youtube.com/watch?v=DzKqCmjVXLI>

We have also started learning to recognise and name 3D shapes. We played games and the children especially loved playing 'Fastest finger!' Once the children felt confident with naming the 3D shapes, they then enjoyed sorting them into groups too! Well done, Leopards!

Homework

To support our Topic learning, children also choose POWer projects to complete at home during the half term. The aim is to collect 5 points! There's lots of tasks and activities that they can choose from, and we love sharing their work with the rest of the class. Just bring your projects to school when you're ready to share them or you could share them on the class page on Google Classroom. In addition to topic work, the children should also be practising their weekly spellings and reading at least three times a week.

Stars of the Week

Rueben and Miles. Well done!

Have a lovely weekend.

Miss Dallow and Mrs Wright 😊
