

Leopard Class Newsletter

In English we have been writing our own set of instructions on how to bake a gingerbread man. We have included a title, sub-headings, bullet points, bossy verbs and time connectives! We enjoyed making gingerbread people too which helped us with the ordering our instructions.

In Maths, we have started learning about parts and wholes. We have played lots of games to help us understand this concept and we have enjoyed investigating different ways we can split 8 into 2 parts, for example, 3 is a part, 5 is a part, 8 is the whole. We have also used rulers to measure different objects using centimetres, remembering to position the object at 0 before starting to measure. Well done, Leopards!

In our topic lessons, we have built our rockets and they all look fabulous! We have also evaluated our rockets and discussed the things that went well and what we would do differently next time.

Homework

We have had some lovely pieces of homework being brought into school and uploaded onto Google Classroom, and the children have loved sharing their work with their classmates. There is still plenty of time to complete your POWER Projects and we look forward to you sharing them with us.

Well done on your brilliant performance of 'Big Red Potato Harvester' in church. We are very proud of you!

Have a lovely half term!

Miss Dallow and Mrs Wright 😊
