

Bright Bumblebees

Maths

We have been partitioning numbers. First, we partition them into tens and ones but then into other parts too, Eg, $56 = 40 + 16$. We have also been learning how to write numbers in words, eg. 23 is twenty-three.

English

We have been busy learning our story, *The Papaya That Spoke*. We can now use noun phrases, eg. The hardworking, friendly farmer, and synonyms for 'said' (shouted, laughed, cried). Next week we will begin planning our own journey story.

Topic

Following on from our learning about the moon landing in 1969, we have been curious about what an astronaut needs in space. We labelled an astronaut's suit and listened to Tim Peake explain what astronauts do. We were particularly intrigued by how they go to the toilet!

This week's Bright Bumblebees are **Mickey** and **Sophia**!

Have a great weekend and see you on Monday!

Mrs Hickman ☺
