

## Bright Bumblebees

### Maths

This week we have been making fact families. If we know that  $5+2=7$ , then we also know that

$$2+5=7$$

$$7-5=2$$

$$7-2=5,$$

Also, we have been using related facts. For example,  $5+2=7$  and  $50+20=70$

### English

We have been learning a recipe for Pumpkin Soup. We have given each other instructions using time connectives (**first, next, then, after that, finally**) and thought carefully about which adverbs to use.

### Topic

This week we have learnt about Isambard Kingdom Brunel. He was famous for engineering the Great Western Railway and bridges such as Clifton Suspension Bridge. He famously wore a top hat, and the children were excellent at sketching what he looked like.

This week's Bright Bumblebees are **Ada** and **Max**!

Have a great weekend and see you on Monday!

Mrs Hickman ☺
