

Bright Bumblebees

Maths

This week we have begun to subtract! We can use our bonds to 10 to help us.
Eg, $3+7=10$ so $10-7=3$.

Also, we worked on subtracting from a multiple of 10.

$10-7=3$, $20-7=13$, $30-7=23$, $40-7=33$ etc

English

We have independently written instructions for how to make a chocolate bar.

What super writers they all are! 😊

DT

Our chocolate bars were fantastic! Everyone thought of a name, an eye-catching wrapper and added at least one extra ingredient. We looked at everyone's designs and discussed how we could improve them next time. Well done, everyone!

Have a brilliant half term break, everyone!

Mrs Hickman 😊
