

## Legendary Lions Newsletter

Friday 3<sup>rd</sup> October

### Maths

In maths this week, we have been adding and subtracting hundreds, tens and ones with no exchanges (e.g. 249-121). We have also been looking at 2 step addition and subtraction word problems and the strategies that we can use to help us to work them out, such as underlining key information and breaking the word problem down into steps.

### English

In English this week, we have been planning and writing our beach setting descriptions ready to send to the pirates! We have been working extremely hard to ensure that all features from the toolkit have been included (e.g. fronted adverbials, expanded noun phrases etc) I wonder if we will get a reply on Monday...

### Science

In science, we have continued learning about the function of skeletons. We have moved to looking at the skeletons of animals and have been comparing them to the human skeleton. We also had a new classmate arrive! He wasn't sure what any of his bones were called, so we helped him out!

### Homework

Please try to read at least 4 times a week at home and record in reading records, practice spellings each evening and complete 15 minutes of TTRS each week. This will be checked every Friday.

Well done to Lily Rose, Ava, Aurora and Henry for achieving certificates this week!

Have a lovely weekend,

Miss Higgins
