

Legendary Lions Newsletter

Friday 21st November

Maths

In maths this week, we have been revisiting multiples of 2, 5 and 10. We have also been looking at two pictorial strategies that we can use to help us to solve division problems; sharing and grouping.

This term, we are focusing on practicing our 2s, 5s and 10s times tables. We have been playing fun multiplayer games, such as tug of war and tables tennis (see links below) to help strengthen our times table knowledge.

English

In English this week, we have been working extremely hard to plan and write our stories based on The Stone Trolls. We had to make sure that we included all of the features from our toolkit in our stories to make sure that the reader would be able to picture it.

Topic

This week, we have been learning about how the Stone Age was split into three periods: The Palaeolithic Period (Old Stone Age), Mesolithic Period (Middle Stone Age) and Neolithic Period (New Stone Age) and have been making timelines to show this.

Science

In Science this week, we have been learning about how soil is formed, and have been investigating the physical properties of different types of soil, e.g. sandy soil, chalky soil, etc. It was interesting to see how different each type of soil was!

Homework

Please try to read at least 4 times a week at home and record in reading records, practice spellings each evening and complete 15 minutes of TTRS each week. This will be checked every Friday.

Well done to Teddy, Hugh, and Winnie for achieving certificates this week!

Have a lovely weekend,

Miss Higgins
