

Legendary Lions Newsletter

Friday 28th November

Maths

In maths this week, we have been multiplying and dividing by 3 and 4. We have learnt the importance of times table knowledge, as it can help us in other areas of maths!

This term, we are focusing on practicing our 2s, 5s and 10s times tables. We have been playing fun multiplayer games, such as tug of war and tables tennis (see links below) to help strengthen our times table knowledge.

English

In English this week, we received a letter from an explorer asking us to write non-chronological reports about a polar animal! We have spent the week creating a text map on a report about lions and have been expanding our vocabulary with new words from the text.

Topic

This week, we have been learning about how evidence, such as artefacts and photos, helps us to understand what has happened in the past. We examined pictures of objects from the Stone Age and identified what this told us about life during this period.

Science

In Science this week, we have been investigating the time taken for different types of soil to absorb water.

Homework

Please try to read at least 4 times a week at home and record in reading records, practice spellings each evening and complete 15 minutes of TTRS each week. This will be checked every Friday.

Well done to Barnaby, Morgan, Aria and Poppy for achieving certificates this week!

Have a lovely weekend,

Miss Higgins
