

# TIGER CLASS

First of all, a huge welcome back to all of the children in Year 6. They have all made a super start to the new academic year and have settled really well into class.

This week, the children have been completing a range of activities linked to previous learning. They have completed spelling tests, an arithmetic test and times table challenge.

Every Friday, children will have a spelling test and complete a times table challenge.

Spellings will be given out on a Monday and it would be very much appreciated if parents/carers could ensure that their children learn these please. Times tables are also essential for the children to know and have recall of. These facts are vital for many areas of our Maths and if children know these it makes things so much easier for them. For those children, who are not secure with their times tables, I will be sending home a times table sheet and if your child could choose one times table to practise every day until they know it, that would be great - thank you.

During the afternoons, Tiger class have settled into activities such as, reading, RE, Geography and Science.

This term, the children will be studying Volcanoes and Earthquakes, The Circulatory system, The artist 'Hokusai', Hinduism and the book 'Clockwork'.

Reading records will be collected in on Friday mornings and I will be checking to see if the children have read for a minimum of four times a week. Please encourage your child to fill in their reading record on a regular basis and sign to say you have checked it.

This half-term, our P.E. days are a Monday and a Tuesday.

Have a lovely weekend!

Mrs Gittens and Ms. Archer
