

TIGER CLASS

In English, Tiger Class have been identifying the '5W's' within various introductions of newspaper reports. The children have identified the language features within our whole class text 'Blizzard Causes Chaos,' and have used a box-it-up planning grid to make notes from the text. Tiger Class have developed their knowledge of direct and reported speech and we are now in the process of starting a share write of a newspaper report.

In Maths, Tiger Class have been applying their knowledge of the four operations to calculate answers to multi-step problems. The children have then been learning about the order of operations (BODMAS OR BIDMAS) and have used their skills of mental calculations to solve a range of sums. Tiger Class have ended the week reasoning from known facts to answer questions.

During the afternoons, Tiger class have had a brilliant afternoon taking part in a STEM challenge. This week, they took part in a competition to design and make a new theme park ride for The West Midland Safari park.

The children used Knex to create their designs and enjoyed working in pairs to solve the challenge. All the ideas were so creative and different and showed lots of imagination.

Also, this week, the children have been using Tinkercad to create designs on the computers and continued to find out about the blood vessels in Science.

Well done for earning a certificate this week to: Emma and Levi

Have a lovely weekend!

Mrs Gittens and Ms.Archer
