

## Bright Bumblebees

### Maths

This week we have begun our multiplication and division unit. We have used lots of useful language to help us understand. For example,

$3+3+3+3=12$  can be said as '**There are 4 equal groups with 3 in each group.**'

### English

We have written our own stories this week (Hot Task) and I have been so impressed with how good they are!

We have also written a simple diary entry as a child from 1666 writing about his experience.

### Topic

We have used maps of London to find out the extent of damage from the great fire. We discussed how London was rebuilt and what changes had to be made to prevent anything like this happening again.

I have loved seeing all the homework so far. Please keep it coming!

Lots of children have enjoyed further exploration of the website we use in computing/music. Here it is again:

[Chrome Music Lab](#)

This week's Bright Bumblebees are **Noah, Hallie and Jacob.**

Have a great weekend!

Mrs Hickman 😊
